

## Postal Optimization

**Computer  
Preparation**

**Document  
Sorting**

**Logistics**

### **Achieve maximum postal discounts and efficient delivery of your direct mail.**

Our presorting division commingles already prepared First Class or Standard Class mail from multiple mailers and combines it with Access processed mail to achieve greater postal discounts. We receive or pick up prepared mail from other mailers and utilize high-speed sorting equipment to commingle mail on our premises. All mail is balanced and documented and postage is paid. First Class mail is delivered to our on site Post Office and Standard Class is transported directly to the BMC or the SCF. By moving high volumes of mail and reducing delivery time, we have the ability to save between 15% and 25% on service and shuttle charges.
