

## Postal Optimization - Standard Class

**Document  
Sorting**

**Logistics**

**Computer  
Preparation**

You can minimize your Standard Mail costs by taking advantage of the postal discounts available by presorting, and maximize deliverability through consolidation.

- Achieve faster delivery by consolidating fully qualified mail with other mailers for postal drop shipments
- Commingling your unqualified mail with other major mailers to increase BMC and SCF penetration and reduce postage costs.

Processed Standard Mail is received or picked up, and consolidated or commingled with Access produced mail, and then trucked to the appropriate BMC or SCF through our Logistics technology.
